

Please Read before Entering; Library Re-Opening Safety Rules

The Greenwood Lake Public Library is now open for limited services. To ensure consistent use of appropriate safety practices, please review and agree to the following practices before entering, which will apply until the board determines otherwise:

I agree to wear a mask properly, covering both my nose and mouth, at all times in the library; if I am medically unable to wear a mask, I will call the Library Director at 845 477-8377 ext 103 to arrange reasonable accommodations.

I will sanitize my hands prior to entry at the station provided by the library.

I will avoid touching my face and mask while in the library's premises.

I will leave any unwanted items that I have touched on the carts provided to be sanitized.

I will follow social distancing guidelines and stay 6 feet apart from other patrons and staff.

I will respect the time limits for my appointments in order to allow others to use the library.

I understand that these practices are currently the rules of the library and they are being enforced both for my safety and that of the public as currently advised by the Center for Disease Control.
